Lombardi Chiropractic Family Health Center

Dr. Peter Lombardi

Welcome to our office! It is well known that families who maintain strong healthy, well-aligned spines have much improved health. People whose spines are not kept in proper alignment are much more likely to develop health disorders later in life such as arthritis, illness, pain, heart attacks, strokes, even cancer.

Terms of Acceptance

When a patient seeks chiropractic health care and we accept a patient for such care, it is essential for both to be working towards the same objective.

Chiropractic has only one goal. It is important that each patient understands both the objective and the method that will be used to attain it. This will prevent any confusion or disappointment.

Adjustment: An adjustment is the specific application of forces to facilitate the body's correction of vertebral subluxation.

Health: A state of optimal physical, mental, and social well-being not merely the absence of disease or infirmity.

Vertebral Subluxation: A misalignment of one or more of the 21 vertebra in the spinal column which causes alteration of nerve function and interference to the transmission of mental impulses, resulting in a lessening of the body's innate ability to express its maximum health potential.

We do not offer to diagnose or treat any disease or condition other than vertebral subluxation. However, if during the course of chiropractic spinal examination. We encounter non-chiropractic or unusual findings; we will advise you. If you desire advice, diagnosis or treatment for those findings, we recommend that you seek the services of a health care provider who specializes in that area.

Regardless of what a disease is called, we do not offer to treat it. Nor do we offer advice regarding treatment prescribed by other. **OUR ONLY PRACTICE OBJECTIVE** is to eliminate a major interference to the expression of the body's innate wisdom. Our only method is specific adjusting to correct the vertebral subluxations.

I,_____have read and fully understood the above statements.

All questions regarding the doctor's objectives pertaining to my case in this office have been answered to my complete satisfaction.

I therefore accept chiropractic care on this basis.

Financial Policy

Our Team would like to take a moment and welcome you to our practice. Since you have made the first step in entrusting us with your health, we would like to express our commitment and dedication to making sure you receive the best care possible!

Please read our financial policies below:

Fee-for Service: Our patients pay out of pocket for services rendered at the time of appointment. We accept Cash, Credit Card, or Check. I understand that I am financially responsible for any charges incurred at this office.

Insurance: Our office is not "in-network" with any insurance company. As a courtesy, we can verify your "out of network" chiropractic benefits, and submit claims to your insurance company on your behalf. You will get reimbursed directly from your insurance company, depending on your plan and benefits.

Medicare: We are registered as non-participating, non-assignment, which means that we receive payment from the patient, not from Medicare. We will submit claims to Medicare on your behalf. You will get reimbursed directly from Medicare, depending on your plan and benefits.

I have read this document and understand my obligations for payment for care in this office.

Informed Consent for Chiropractic Treatment and Care

I hereby request and consent to the performance of chiropractic adjustments and other chiropractic procedures, including various modes of physiotherapy and diagnostic x-rays, on me (or on the patient named below, for whom I am legally responsible) by the doctor or intern, affiliated with Limitless Life Chiropractic.

Chiropractic care, like all forms of health care, while offering considerable benefit, may also provide some level of risk. This level of risk is most often very minimal, yet in rare cases, injury has been associated with chiropractic care. The types of complications that have been reported secondary to chiropractic care in general include sprain/strain injuries, irritation of a disc condition, and rarely, fractures. There are reported cases of stroke associated with visits to medical doctors and chiropractors. I do not expect the doctor to be able to anticipate and explain all risks and complications. I wish to rely on the doctor to exercise judgment during the course of treatment, which the doctor feels at the time, based on the facts then known, to be in my best interest.

I have read, or have had read to me, the above consent. By signing below, I agree to the above, and allow the doctor or intern, affiliated with Limitless Life Chiropractic to perform such. I intend this consent form to cover the entire course of treatment for my present condition and for any future condition(s) for which I seek treatment.
